

DATE: SEPTEMBER 14, 2010

TO: SUBSTANCE USE DISORDER (SUD) PROVIDER NETWORK

FROM: BUSINESS PSYCHOLOGY ASSOCIATES (BPA)

SUBJECT: SUPERVISED FELONY POPULATION SUSPENSION OF RESIDENTIAL (III.5) AUTHORIZATIONS

The Interagency Committee on Substance Abuse Prevention and Treatment (ICSA) voted to suspend residential treatment services for the adult felony population. This letter is to inform you that supervised felony probationers will no longer be eligible for residential services through the Substance Use Disorder Treatment Network. These clients will have alternative services available to them through the Idaho Department of Corrections CAPP facility and other felony sentencing options.

Effective September 15, 2010, clients currently on supervised felony probation will no longer qualify for Residential (III.5) treatment services with exception for the following priority populations:

1. Pregnant Women
2. Child Protection Family Problem Solving Court clients in Regions 2,5, & 6
3. Federal Felony Probationers that meet another direct admit priority population

Supervised felons that qualify for SUD funded services will be eligible for Outpatient, Intensive Outpatient and Recovery Support Services based on current treatment and system protocols. Any clients that are on felony supervised probation and in need of residential services will need to be directed to their supervising officer.

Clients who have a current pending admit authorization or who are currently receiving Residential services will be allowed to complete their program.

If you have any questions please contact your regional coordinator or our client services center at 800-922-3406.

<u>Region 1:</u> Nancy Irvin	208-964-4868	nancyi@bpahealth.com
<u>Region 2:</u> Dean Allen	208-305-4439	dean.allen@bpahealth.com
<u>Region 3, 4, & 5:</u> Jaime Goffin	208-921-2342	jaime.goffin@bpahealth.com
<u>Regions 6 & 7:</u> Lisa Bridges	208-921-8923	lisa.bridges@bpahealth.com
